

Inventory

Inventory Maintenance Policy

- created by the site responsible for maintaining the germplasm
- acts as a template for making new inventory records
 - the germplasm form to be distributed
 - standard amount to be distributed
 - critical distribution and replenishment levels
- determines the owner

Inventory Maintenance Policy

- created by the site responsible for maintaining the germplasm
- acts as a *template* for making new inventory records
 - the germplasm form to be distributed
 - standard amount to be distributed
 - critical distribution and replenishment levels
- determines the *owner*

The Inv. Maintenance Policy populates a new inventory record with the policy's default values for *certain* fields
